### Porting Services

Our Porter Service provides the necessary daily custodial tasks and emergency issues such as replacing light bulbs, changing liners, and cleaning spills around your HOA, retail, light industrial, or industrial property.

### Sweeping

Sweeping is the EPA's #1 recommended best management practice to reduce the amount of pollutants entering local rivers, lakes, and streams. Trash, sediment, heavy metals, hydrocarbons, oil, and grease are all pollutants reduced.

### Landscaping

Whirlwind provides many landscape services from flowers to field mowing and we will build the program that works best for your site. We always employ best management practices and water conservation techniques.

### Asphalt Maintenance & Striping

We provide parking lot striping, asphalt/concrete repairs, extruded or cast-in-place curbing, as well as expansion joint sealers. When seal coating/stripping your property's parking areas, only the most durable products are used.

### Winter Services

Whirlwind provides winter storm programs that ensure the safety of tenants, clients, and customers. We closely monitor the temperature and conditions to best address the snow or de-icing needs on your property.

### Environmental Pressure Washing

Our Pressure washing crews are trained in the latest water reclamation practices. We have the tools and expertise to properly clean your site, as well as tanks and water hauling.

### Vactor & Hydro Excavating

We perform safe, economical maintenance of on-site stormwater treatment devices such as StormFilter vaults, BayFilters, oil/water separator's, and grease traps.

### Spill Response

Our trained environmental response team will contain all environmental hazards, clean up the spill site and dispose of all waste in a responsible manner.

### Stormwater Maintenance

Preventative maintenance reduces the accumulation in BMP's such as Detention/Retention vaults, StormFilter & BayFilter vaults, and CDS Units.
